Government of Madras.

ASSISTANT SECRETARY TO GOVT.
14 JUN 1954
HEALTH, EDN. & LOCAL ADMN. DEPT.

Dear Sir,

Having seen your tour programme in the news papers we had written to Madras requesting you to fix up a programme at Hosdrug. We are sorry that we have not received any reply so far from you. We waited in the Rly. Station to-day for the mail train. But we came to know that you had gone by the morning express. We are requesting you to see that before you leave for Madras some time is given to Hosdrug also if convenient. We are sending a copy of the memorandum along with a copy of the resolution which we wanted to present at Hosdrug. We are wait-ing for an early reply.

Thanking You,

Yours faithfully,

A. N. Nair

Submitted by the Hosdrug Town Congress Committe on behalf of the public of Hosdrug.

To

Sri. A. B. Shetty, Honourable Minister For Public Health,

Government of Madras.

Honourable Sir,

We beg to submit the following few words for your kind consideration and favourable orders.

Though our sub-taluk is having a few public offices and other minor amenities to the public, they have been not sufficient to meet the neces-sities of the people here.

(1) It is well known that Hosdrug area is not given any help by the firka development, national extension scheme or community project. The people are highly illiterate and the educational facilities are also insufficient to meet the demands of the people. We therefore feel that a few more pri-mary schools be run in these parts from this June onwards.

(2) The lack of proper medical facilities in these parts is a great handicap for the people to lead a normal life. There is only one Local Fund dispensary here for the whole of the sub-taluk. In spite of the growing number of patients suffering from various tropical diseases it is highly regrettable that the Govt. has not so far done anything material to improve the situation. We humbly suggest that more dispensaries may be opened and the present Local Fund dispensary may be converted into a hospital.

(3) Of late in these parts Leprosy cases have been steadily increasing particularly in the villages. It will be highly beneficial to the villagers if a leprosy clinic were to be opened in Hosdrug. We pray that the Govt. may take into consideration this matter seriously as early as possible.

(4) Hosdrug Town is a small and undeveloped one in many respects in spite of its being within the major Panchayat Board area of Kanhangad. It is a sorrowful feature that the Kanhangad Panchayat Board has recently made the provisions of the revised building rule under the Town Planning act appli-cable to these parts. The public being highly illiterate besides being poor are not in a position to abide by the provisions of the said law. It is also to be noted that the authorities themselves are lacking in well qualified personnels to enforce the said law by giving proper instructions and advices to the public. While on the one hand we have ignorant people who do not know

5

how a modern house has to be constructed, we have a Panchayat Board enforcing the provisions of the revised building rules under the Town Planning act without having any technical men in their service.

(5) As such the revised building rules under the Town Planning act which is now made applicable in these parts has done severe harm to several innocent law abiding citizens of this area, some of whom are even prosecuted against. We have been receiving several complaints about this matter and considering the circumstances of those cases we think that this is the most important matter to be dealt with and therefore we have passed a seperate resolution urging the Govt. to take the necessary steps to withdraw the application of the said act from this area urgently. (A copy of the reso--lution we are submitting herewith.) We pray that this matter may be considered as early as possible and the necessary action taken to relieve the public of this unwanted law.

KANHANGAD.

Thanking You,

Yours faithfully,

Resolution passed by the Town Congress Committee, Hosdrug, dated 24-5-1954. Resolution No. 7.

" We do hereby unanimously resolve that the revised building ~~xx~~ rules under the Town Planning Act which has been brought into force in these parts by the Kanhangad Panchayat Board instead of being beneficial, has so far proved more inconvenient and troublesome to the public due to illiteracy and the consequent ignorance of the pro-visions of the said law on the part of the general public. On a careful consideration of the several complaints we have so far recei-ved about this matter from the public and after investigation we find that the application of the said act to these parts was not sufficiently made known to the public at large. Consequently there are a few instances of innocent people facing unnecessary legal action against them. We therefore unanimously resolve that the Govt. should take the necessary steps to withdraw urgently the application of the said act from this area for the present in the best interest of the people."

The Honorary Medical officer, Leprosy Relief and Control Scheme, Perdala, states that he had received only one case of Leprosy for treatment during the year 1953. But Dr. A.F. Coelho, Honorary Secretary, Kusta Nivaran Sangh and Medical Officer, in charge of Leper Asylum, Kankanady states that since 1951 to 1954, 15 infectious cases were treated out of 202 admitted in the Hospital. The leper patients could be treated in the Local Fund Dispensary, Hosdrug twice a week, if necessary, in a separate shed which may be built at a small cost. The present figures do not necessitate to open a leprosy clinic at Hosdrug.
